Numeric responses use a scale 0-4 where 4 is the highest rating.   IND RESP

#		IND RESP
1	The syllabus clearly explained the goals for learning, grading policy, and the schedule.	4
2	Class time was well-organized.	4
3	Course materials supported my learning of the course content.	4
4	Examples and/or particular readings used during class time helped me understand the course	4
5	Assignments including readings, videos, and problem sets, helped clarify my understanding of the course	4
6	Feedback on assignments improved my understanding of the course content.	4
7	My performance in the class was clearly communicated to me throughout the semester.	4
8	My interest in the subject increased as a result of taking this course.	3
9	If the class had a discussion component, the instructor encouraged widespread involvement, kept focus, and	4
10	The instructor was available to answer questions outside of class.	4
11	Overall evaluation of the instructor's performance:	4
12	Overall evaluation of the course:	4
13	How many hours per week did you spend on this course outside of class time?	1

14 *Did any particular aspects of this course enhance your learning?*

I appreciate that Dr. Reynolds took the time to create assignments and grade them thoroughly; this feedback is invaluable. He also took the time to write code outside of class just to show us good examples. In class, his lectures were well-organizedand very understandable; he also tried to involve the class in some discussion and was very open to questions. Overall, he did a fantastic job and it's hard to imagine how he could have done better.

15 *Did any particular aspects of this course detract from your learning?*

Nope.

12	Overall evaluation of the course:	0
13	How many hours per week did you spend on this course outside of class time?	2

14 *Did any particular aspects of this course enhance your learning?*

 Examples, thorough derivations.

15 *Did any particular aspects of this course detract from your learning?*

 Bitbucket is awful, should have used matlab instead of c++, focused too much on the programming itself rather than enforcing mathematical concepts.

13	How many hours per week did you spend on this course outside of class time?	2

14 *Did any particular aspects of this course enhance your learning?*

The structure of the course made the material very easy to relate and follow. Dr. Reynolds was also very knowledgable and helpful in answering questions in and outside of class.

15 *Did any particular aspects of this course detract from your learning?*

The book was mostly helpful, but it took a lot of getting used to the notation used. I believe it would have been better to just use Dr. Reynolds lectures as course material, and use questions from the book on homework as needed.
